ILIAS RAIS

Software Engineering | UX/UI Designer | Front-End Developer

At the end of the day, I am driven by the belief that design and development have the power to make our world a better, more connected, and more equitable place.
From designing wireframes to crafting beautiful user interfaces, I am fascinated by the process of creating products that solve real-world problems and enhance the user experience.

EXPERIENCES

Nov 2022 - Present | CEO
NexuSpark
Full-Time
By working closely with our clients, the agency can identify their unique needs and goals and create a customized marketing plan that will help them achieve success.

Nov 2022 - Jan 2023 | Graphic Designer
Kreis Maroc
Internship - Hybrid
As the Head of Social Media Accounts, I was responsible for developing and executing social media strategies that align with Kreis vision and goals. My extensive experience in social media management, content creation, and digital marketing allowed me to bring fresh ideas and perspectives to the role.

Aug 2022 - Sep 2022 | UX/UI Designer
Miratti Bags
Internship - Remote
Make the user experience enjoyable and easy to use, also to improve the usability of the website

Jun 2020 - Sept 2022 | Graphic Designer
Freelancer
Leveraged design skills to create unique assets that are aligned with the brand, but are focused on the needs of customers, prospects, partners.

ACADEMIC EXPERIENCES

Nov 2021 - Present
Club informatique ENSAM CASA
Training Manager | Consultant | Head of Social Media & Graphic Design
- Training +200 members in Software Skills: Python, Web dev, Linux
- Supervising projects
- Designing the visual identity of the club for 2 years

2022 - 2023
ADE Hawks
Head of Logistics | Graphic Designer
Embarked on a series of adventures to prepare for the election, including brainstorming campaign strategies, designing posters and flyers, and engaging with our fellow students to understand their needs and concerns. The experience taught me valuable lessons in leadership, teamwork, and perseverance, which I will carry with me throughout my life.

PROJECTS

Movies Website
Full-Stack Project
As a Part of the team, we used:
- **Database Design Process:** to model the database (MCD, MLD)
- **MySQL:** To create the relational database management system
- **PHP:** for backend development
- **Front-End Technologies:** for creating a good user interface
- **Figma**: used to provide an UI/UX in order to improve the usability of the product

NextStep - Orientation Platform
Full-Stack Project
This project is from students and for students, providing them with all the information they need to choose their path and successes in their education.
